

iPad Installation

Insert one end of iPad under lip.

Press the outside face of the Padcaster and work all four sides in securely along corners and edges of iPad.

NOTE: Do not force the iPad in. Excessive pressure could result in glass cracking.

Turn iPad on. Capture inspiring video.

To remove: Press the outside face of the Padcaster while holding the frame.

Only press on the face if you intend to remove your iPad. Mishandling could result in the iPad coming out unexpectedly.

Edit and enjoy. Repeat.
